

HOW TO CONDUCT A DRAW (as per WBNSW 9.2.19)

- To create a draw finishing with only 2 players/teams coming through at the end for a final as per the draw below.
- Use Perfect Numbers - 2, 4, 8, 16, 32, 64 etc. For example if you have only 7 entries for your competition, then you would use the perfect number 8, if you have 9 entries then you would use 16, if you have more than 16 and less than 33 you would use 32, if you have 33 and less than 65 you would use 64. These perfect numbers are indicated below on the draw sheet as to which line of the draw you would use.
- Deduct the number of entries received from the next highest perfect number. i.e. 27 entries received from the perfect number **32** gives you 5 Byes. 27 less the 5 byes = 22. This means that the team drawn number 23 will be the first team with a Bye. Then proceed to add Byes alternately after each entry as shown below.
- All draws must be Open and have the full names of all players in place, in the correct order of play. First named is lead, second, then third, then skip, If space is limited a separate sheet must be attached.
 - All teams are self-selected in all Association Events.
 - No seeding of players and/or teams. They are placed in the order in which they are drawn.
 - Definition of an "Open Draw": Regardless of how many entries are received ALL TEAMS must be placed together then drawn individually.
 - **Once a draw is recorded it shall not be altered.** If an error is detected the draw must be conducted again. All draws are to be signed and dated by those conducting the draw.
 - 7 day's notice must be given for the playing of the first round with subsequent rounds dated on the top of each column.
 - Replacement players, when introduced, must be entered on the draw. The original members name has a line drawn through it with the replacements name written underneath with a **RED** capital **R** after their name.
